

Work less, play more.

Take the work out of owning a pool and spa. Make sanitizing your water foolproof. Manage your entire environment effortlessly. With everything from controls to salt chlorination to chemistry automation to remote access to lighting, Goldline Controls® delivers the best experience, automatically.

Whether you currently have basic pool and spa functions controlled by a time clock or an extensive backyard paradise, Goldline Controls has a solution to meet your needs while enhancing the enjoyment you, your family and friends will get from your pool and spa.

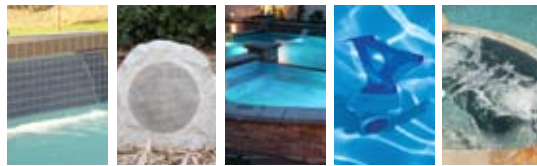

With everything from controls to salt chlorination to chemistry automation, Goldline Controls delivers the best experience, automatically.

PRO LOGIC™ TOTAL POOL MANAGEMENT™

All the control you need to create the ultimate pool and spa experience.

Manage all pool and spa functions, as well as other backyard features, effortlessly. This flexible and scalable professional-grade series is the only Total Pool Management line in

the industry to offer integrated water chemistry automation, tie-in to home automation, salt chlorination and control of up to 16 devices. A variety of models lets you choose the level of control that

best fits your environment and add options that allow you to work less and play more. You can control your pool from the unit or from one or more of our optional remote controllers – indoors, poolside or in the water with our waterproof Aqua Pod™.

AQUA PLUS™ CONTROL AND SALT CHLORINATION

All-in-one control and salt chlorination makes life simple.

The ideal solution for anyone looking to enhance – and simplify – pool and spa ownership, Aqua Plus combines automated control and salt chlorination in one easy-to-install, easy-to-operate package. With Aqua Plus, learning to program essential functions for maximum performance, effectiveness and cost-efficiency takes minutes, not hours. With filtration, for example, Aqua Plus lets you custom-design a schedule to match your lifestyle: steady all week, more during busy weekends or less on weekdays when activity is limited. In addition to water flow, sanitization and temperature, Aqua Plus can also control other backyard features, including lighting and sprinklers.

AQUA RITE™ PRO CHLORINATION AND CHEMISTRY AUTOMATION

Salt chlorination and chemistry automation – an amazing combination.

Professional-grade Aqua Rite Pro senses sanitization and pH levels and dispenses a self-renewing supply of pure chlorine generated from salt, while controlling pH. Integrating chemistry automation with sanitization eliminates the need for an additional device on the pool pad and lowers installation costs. So now you get the most consistent water quality possible, water that's brilliant, soft and silky smooth, for the best possible pool experience.

AQUA RITE™ SALT CHLORINATION

It's amazing what a little salt can do to enhance your pool experience.

Aqua Rite is the simple, safe and affordable approach to pool and spa sanitization. It turns ordinary salt into a regenerating supply of fresh, pure chlorine, automatically.

TURBO CELL®

Right-sized salt chlorination.

Goldline Controls now offers a new line of Turbo Cells for their salt chlorination and controls solutions. The cells now come in three sizes – 40,000, 25,000 and 15,000 gallons. The new sizes enable you to right-size your pool for the most-efficient and cost-effective chlorination possible. These cells are based on the proven Turbo Cell technology that made Goldline Controls the leader in salt chlorination.

New for 2009 season, Turbo Cells will be sold separately.

SENSE AND DISPENSE™, TOTAL POOL CHEMISTRY™

Spend more time enjoying your pool and less time working on it.

The industry's only control line with an integrated Total Pool Chemistry option that allows you to work less and play more. Sense and Dispense continuously senses sanitization and pH levels and dynamically dispenses a self-renewing supply of fresh, pure chlorine – generated from ordinary salt – while controlling pH levels. Now you can achieve the most consistent water quality possible, water that's brilliant, soft and silky smooth, automatically.

AQUA CONNECT™ REMOTE CONTROL VIA INTERNET & WI-FI NETWORKS

Connect to the perfect pool.

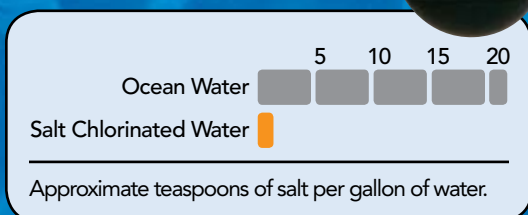

Aqua Connect now gives you the freedom to monitor and control your pool, spa and backyard functions from anywhere – from the Internet, any wireless device using your home's Wi-Fi network or from your home automation system. Want to turn up the spa heater before you head home from work; adjust cleaning, filtration or lighting schedules while you're on vacation or check your water's pH and sanitization levels from your PDA or cell phone – you can do it all and more with Aqua Connect.

Never buy, mix, measure or store old-fashioned chlorine again.

Forget about mixing, measuring or messing around with harsh liquid or tablet chlorine. Say goodbye to red eyes, itchy skin, heavy chemical odors and the unwanted bleaching of toys and clothes. Now there's an easier, more efficient and cost-effective way to satisfy 100% of your sanitization needs and enjoy pool water that's always clean, clear and luxuriously soft.

Use a Minimal Amount of Salt

A teaspoon of salt per gallon is all it takes. Salt that doesn't wear out or evaporate; it's used over and over again. Day in and day out, you have fresh, pure chlorine introduced evenly throughout your swimming pool and spa. Salt chlorinated water is perfect for plaster, pebble, vinyl and fiberglass pools up to 40,000 gallons*!

*For pools over 40,000 gallons, use additional unit(s).

Reinvent Your Pool

Everything you'll need to effortlessly create and control the ultimate pool and spa experience.

GOLDLINE
CONTROLS®
A HAYWARD COMPANY

The Best Experience,
Automatically.

COLORLOGIC® LED POOL AND SPA LIGHTING

Hayward's best-selling colored underwater lighting system.

With the simple push of a button, you can bathe your pool in your choice of five stunning fixed colors or choose from seven dazzling light shows. ColorLogic's light shows can have a sophisticated mood with Twilight or a relaxing one Tranquility. Get the party started with Voodoo Lounge, Gemstone, Mardi Gras or Cool Cabaret. Integrate ColorLogic with Pro Logic and get four additional light shows, 101 fixed colors and the ability to customize speed, motion and brightness. With ColorLogic from Hayward®, you can choreograph an entire evening's entertainment.

OPTIONAL REMOTE CONTROLLERS

Aqua Pod Waterproof Handheld

Easily programmable, fully rechargeable and not just water resistant but totally waterproof, the Aqua Pod handheld remote takes pool and spa control where it's never gone before – right into the water. Backlit for nighttime use, and engineered to float horizontally, it's both ingenious and indispensable. Easy-to-operate Aqua Pod remote works with Pro Logic and Aqua Plus to put control of all basic pool and spa functions, lighting, cleaner, water features and more at your fingertips. It can handle multiple heaters, solar and ColorLogic LED underwater lights from Hayward Pool Products. It also offers group-function programming for greater convenience and a System Off button for added safety.

Wireless Tabletop

Fully programmable with easy-to-read scrolling displays of all pool and spa functions. Low-profile, mobile design with rechargeable long-life internal batteries. Compact and lightweight, available in black and white.

Wireless Spa Side

Floating, waterproof remote controller. Operates pool and/or spa with simple on/off commands for all functions. Multiple remotes in different locations can be used within a single system.

Wired Spa Side

Basic on/off control of all features. Offered in two models: 8- or 6-function. Attractive, durable and easy to mount. Available in black and white.

Wireless and Wired Wall Mount

Low-profile design suitable for all indoor or protected outdoor applications. Mounts directly on wall or standard electrical box. Available in black and white.

Just some of the many ways we're reinventing the pool experience.
