

Sense and Dispense

Aqua Pod™

Wireless Tabletop Remote

Wireless 6-Function Remote

Wired 6-Function Spa-side Remote

Wired Wall-mount Remote

## Options and Accessories

### Sense and Dispense®

Hayward has the industry's only automation line with an integrated Total Pool Chemistry® option. Sense and Dispense continuously monitors chlorine and pH levels and dispenses what the water needs, only when it needs it. Sense and Dispense can help you achieve the most consistent water quality possible... eliminating unhealthy chemical highs and lows. For water that's brilliantly clear and silky to your touch.

### Remote Control

For the greatest possible convenience, Hayward offers a full line of optional wireless and wired remotes. Anything you can do from the automation system itself you can do from full-function remotes. From the simplest on/off function remote to the programmable, full-function, waterproof Aqua Pod™ – you can take control from anywhere – indoors, poolside or right in the pool.

### Optional Remotes

- Aqua Pod** – waterproof, fully programmable, wireless handheld remote
- Wireless 6-Function** – waterproof, wireless 6-function floating remote
- Wireless Tabletop** – suitable for indoor use or protected outdoor locations
- Wired and Wireless Wall-mounts** – suitable for indoor use or protected outdoor locations
- Wired 6-function Spa-side** – six-function remote for spa-side use

### Aqua Plus® Base System

Aqua Plus	Description
PL-PLUS	Comes equipped with 4 relays and 3 valve outputs, manages 1 traditional heater and 1 solar heater. Also comes equipped with a salt chlorination cell for pools up to 40,000 gallons.
PL-PLUS-16V	Comes equipped with 8 relays and 4 valve outputs, manages 2 traditional heaters and 1 solar heater. Has 8 programmable soft keys. Also comes equipped with a salt chlorination cell for pools up to 40,000 gallons.

AUTOMATION

## Jump in. Your work is done.

Automate essential pool and spa functions for maximum efficiency as well as other backyard features. Aqua Plus® simplifies and enhances pool and spa ownership by combining automation and salt chlorination. This all-in-one solution is easy to install and operate, with many options to choose from – like chemistry automation, remote control and more.

### Salt Chlorination: the key to gentle, clean, silky smooth water.

Say goodbye to red eyes, itchy skin and faded colors on swimwear. Those nuisances are the result of harsh, toxic, factory-produced chlorine. With Aqua Plus, just a small amount of ordinary salt is all that's needed to produce a self-renewing supply of fresh, pure, natural chlorine. The minute you step in the pool you'll notice that you're immersed in luxuriously soft water that's crystal clear, incredibly clean and odor free.

### What's in the package? What's in it for you?

The Aqua Plus package contains two main parts: an Aqua Plus automation unit and a Turbo Cell®. Here's a simple breakdown of the roles each component plays in making your backyard a relaxing oasis.

Aqua Plus shown with optional Sense and Dispense.

### Automation Unit:

Aqua Plus is the brains on your pool pad. It takes the work out of pool and spa ownership by automating all work-intensive functions, such as sanitization, balancing pH and chlorine levels, cleaning and filtration. For even more control, customize your system to manage other backyard features — landscape and pool lighting, water features and more. Take control as far as you can — even right into the water with a wireless, waterproof remote.

Perhaps best of all, automation saves you money — by automating essential pool and spa functions, you can save up to 70% on your pool's energy usage.

## 2 MODELS TO CHOOSE FROM

### Features:

#### PL-PLUS

- 4 Relays
- 3 Valve Outputs
- 1 Conventional Heater
- 1 Solar Heater
- Automatic Chlorine Generation for Pools Up to 40,000 Gallons

#### PL-PLUS-16V

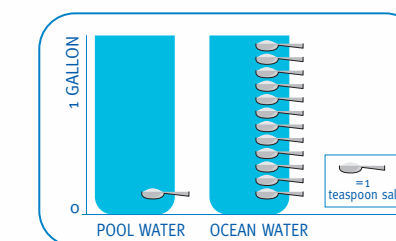

- 8 Relays
- 4 Valve Outputs
- 2 Conventional Heaters
- 1 Solar Heater
- 8 Programmable Softkeys
- Automatic Chlorine Generation for Pools Up to 40,000 Gallons

### Types of other features they can control:

- Water temperature (gas, electric and solar heaters)
- Filtration cycles (daily/weekly; time of day/duration)
- Pool lights (on/off/timed), light shows with ColorLogic®
- Spa jets (on/off/timed)
- Backyard lighting (on/off/timed)
- Water features (on/off/timed)
- Misters, fire pits and more

### Salt Chlorination:

As pool water passes through the Turbo Cell, its salt is instantly transformed into pure, natural chlorine and the supply is self-renewing. After you add salt the first time, you practically never have to add any more. It is amazing what a little bit of salt can do to keep your pool sanitized automatically.

Aqua Plus uses a minimal amount of salt, below taste level.
