

Power-Vac and Super-Vac

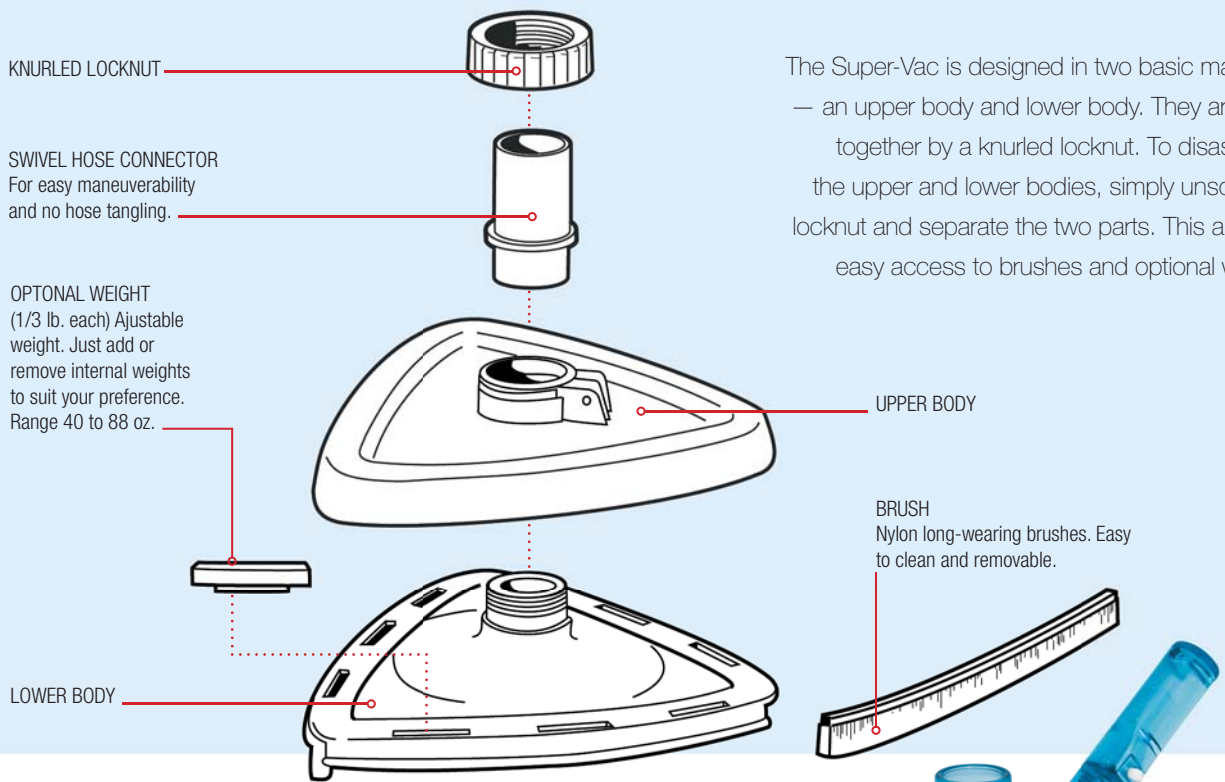

POOL VACUUMS

Features of the Hayward® Power-Vac and Super-Vac pool vacuums:

- Transparent design for fast, easy, more efficient cleaning
- Long-wearing brushes quickly loosen tough algae spots
- Contoured shape provides easy corner and step cleaning
- 360° swivel connector eliminates hose tangling
- Optional weight package for extra vacuuming convenience

The Super-Vac is designed in two basic main parts — an upper body and lower body. They are joined together by a knurled locknut. To disassemble the upper and lower bodies, simply unscrew the locknut and separate the two parts. This allows for easy access to brushes and optional weights.

SP-1067 Visual Power-Vac

Durable, thermoplastic construction makes the Power-Vac suitable for all types and sizes of swimming pools. A transparent head design allows you to view the bottom of the pool as you clean, for greater efficiency. The high-density, lightweight design provides comfort and easy maneuverability. A positive vortex action and Nylon brush makes vacuuming fast and thorough, while the smooth molded surface protects your pool's interior. Includes a 12" circular head and quick-snap handle adapter.

SP-1068 Super-Vac

Durable, thermoplastic construction makes the Super-Vac suitable for all types and sizes of swimming pools. The smooth, contoured triangular shape ensures efficient vortex cleaning action—even in tough corners. Super-Vac features an adjustable internal weight range of 40-88 ounces and comes complete with 360° swivel hose connector, for maximum control and maneuverability.

SP-1068DL Super-Vac

Same as SP-1068, but includes three 1/3 lb. adjustable weights.
