

## Installers & Inspectors

For complete installation instructions, refer to the Owner's Manual that was packaged with your light driver.

**THESE COLORLOGIC® ACCENT LUMINAIRES ARE UL LISTED AND HAVE BEEN EVALUATED FOR USE IN BOTH WET AND DRY APPLICATIONS. THESE LUMINAIRES ARE PERMITTED TO BE INSTALLED INSIDE OF ½" STANDARD PVC PIPE WITHIN 10 FEET OF A WATER CONTAINING VESSEL OR OUTSIDE A 10 FOOT RADIUS FOR LANDSCAPE USE.**

**THE COLORLOGIC ACCENT LUMINAIRE IS A COMPLETELY NONMETALLIC LOW VOLTAGE LIGHT. THIS DOES NOT REQUIRE BONDING OR GROUNDING WHEN POWERED BY A LISTED POOL/SPA TRANSFORMER AND INSTALLED PER THE NATIONAL ELECTRICAL CODE.**

**UNBONDED LIGHTING NEC PROVISIONS:** When these UL Listed low voltage nonmetallic luminaires are installed in ½" PVC, the 2011 National Electric Code (NEC) provides an exception to luminaire bonding and grounding in Article 680.6 and 680.23.

**POOL WATER BONDING NEC PROVISIONS:** For Pool Water Bonding required by Article 680.26C, Concrete pools are considered conductive (see 680.26(B)(1)) due to the porosity of concrete and the bonding of rebar. No Additional bonding is required. For assistance with NEC compliance questions, contact a Hayward Senior Application Engineer at 888-898-9674. For all other product installation or usage assistance, contact Hayward Technical Support at 888-355-7995.

### The complete UL Listed ColorLogic System:

**Non-conductive, 2 Wire, Sealed, 12V, non-metallic with unbreakable lens and no serviceable parts:**
